Lighthouse Communication Group Consulting is a Service-Disabled Veteran-Owned Small Business (SDVOSB) headquartered in Rosenberg, Texas, founded by a U.S. Navy combat veteran with 17 years of service. We deliver enterprise-grade IT modernization, cloud computing, cybersecurity, AI automation, unified communications, physical security and surveillance, structured cabling, and managed services to federal, state, local, healthcare, education, and commercial clients.

CORE COMPETENCIES

- **Cloud Computing** — AWS, Azure, GCP & GovCloud architecture and migration
- **Cybersecurity & Zero Trust** — FedRAMP-aligned practices, SOC 2/ISO 27001-informed controls, NAC & segmentation, incident response
- **AI Solutions & Automation** — AI integration, workflow automation, intelligent platforms
- **Unified Communications & Voice** — Cloud voice, Microsoft Teams Phone & Operator Connect, contact center, PBX-to-cloud migration, paging/intercom integration
- **Network Consulting** — Structured cabling, SD-WAN, CAT6, VoIP infrastructure
- **IoT Integration & Monitoring** — Smart device ecosystems, sensor networks, end-to-end IoT
- **Government IT Modernization** — Federal, state & local IT transformation and upgrades
- **Managed IT Services** — 24/7 support, endpoint management, 2,500+ endpoints managed
- **Physical Security & Surveillance** — AI-powered video analytics, access control, 24/7 monitoring, intrusion detection, CCTV & NVR systems
- **Project Management** — PMP-led delivery, defined SLAs, structured accountability

KEY DIFFERENTIATORS

- **SDVOSB / Veteran-Owned** — Eligible for VA, DoD & civilian agency set-aside awards under the Veterans First Contracting Program
- **Cloud + AI Expertise** — Architecture, migration & AI integration across AWS, Azure, GCP — including GovCloud
- **Security-First Delivery** — Zero Trust and FedRAMP-aligned practices built into every engagement from day one
- **Converged Communications & Security** — Unified communications, AI-driven physical security, and network security delivered as one integrated technology program
- **IoT & Connectivity** — End-to-end IoT integration, smart device ecosystems, SD-WAN/Ethernet network solutions
- **PMP-Led Projects** — Project management discipline with defined SLAs, risk management & delivery accountability

NAICS CODES

Telecommunications, Unified Communications & Voice

517111 Wired Telecommunications Carriers — wired network and VoIP service delivery | **517112 Wireless Telecommunications Carriers (except Satellite)** — private cellular and wireless site connectivity | **517121 Telecommunications Resellers** — UCaaS, Microsoft Teams Phone / Operator Connect & cloud voice reselling | **517122 Agents for Wireless Telecommunications Services** — wireless carrier agency and channel services | **517410 Satellite Telecommunications** — satellite connectivity for remote and distributed sites | **517810 All Other Telecommunications** — paging, intercom & bell system integration | **561422 Telemarketing Bureaus and Other Contact Centers** — cloud contact center design, deployment & support

IT, Cloud & Computer Services

541511 Custom Computer Programming Services — custom application and integration development - **541512 Computer Systems Design Services** — network architecture, NAC & segmentation, systems integration - **541513 Computer Facilities Management Services** — managed IT operations and endpoint management **541519 Other Computer Related Services** — AI/automation platform integration and support - **518210 Data Processing, Hosting & Related Services** — cloud hosting and data processing infrastructure

Engineering & Consulting

541330 Engineering Services — network and systems engineering design - **541618 Other Management Consulting Services** — IT strategy and technology roadmap consulting - **541690 Other Scientific and Technical Consulting Services** — security and compliance risk assessments

Equipment Manufacturing & Repair

334111 Electronic Computer Manufacturing — computing hardware supply - **334118 Computer Terminal & Peripheral Equipment Manufacturing** — endpoint and peripheral hardware supply - **334210 Telephone Apparatus Manufacturing** — IP phone and communications endpoint hardware - **334220 Radio & TV Broadcasting & Wireless Communications Equipment Mfg** — wireless and broadcast equipment supply - **334290 Other Communications Equipment Manufacturing** — specialty communications equipment supply - **811210 Electronic & Precision Equipment Repair and Maintenance** — hardware repair and maintenance services

Wholesale, Construction & Security

423430 Computer & Peripheral Equipment & Software Merchant Wholesalers — hardware and software procurement - **423690 Other Electronic Parts & Equipment Merchant Wholesalers** — electronic components and parts supply - **238210 Electrical Contractors & Other Wiring Installation Contractors** — structured cabling and security system wiring installation - **561621 Security Systems Services (except Locksmiths)** — AI video surveillance, access control & intrusion detection installation with 24/7 monitoring

PAST PERFORMANCE & RELEVANT EXPERIENCE

Lackland Air Force Base — CCTV & Physical Security

Federal | San Antonio, TX

Deployed comprehensive physical security infrastructure for the Cryptologic and Cyber Systems Division. Installed indoor and outdoor IP cameras, real-time monitoring displays, network video recorders (NVR), and CAT 6 horizontal cabling infrastructure supporting the full surveillance ecosystem.

Harris County Utility District 15 — IT, Telecom & Security Infrastructure

Government | Houston Metro, TX

Designed and built a new-construction secure IT environment including CAT 6 plenum cabling, routers, switches, firewalls, wireless access points, wireless bridge, VoIP integration, electronic door access control, IP-based surveillance, and a complete A/V system.

Academy Mortgage — Multi-Site Telecommunications Upgrade (30 Locations)

Commercial | Houston & Dallas, TX

Executed a telecommunications upgrade across 30 locations, replacing legacy analog systems with Cisco IP phones (~750 total), routers, switches, WAPs, rack build-outs, low-voltage cabling, and pathway systems.

Public Storage (30+ Locations) — Access Control Upgrade

Commercial | Houston Metro, TX

Performed numeric access keypad upgrades at 30+ locations with ongoing support for 100+ sites. Systems secured gates, building entrances, and elevators with new CAT 6 cable runs.

Winsupply Warehouse — Telecommunications & Security Build-Out

Commercial | Houston, TX

Supported renovation and new-wing construction with 100 CAT 6 plenum data drops, 20 wireless access points, 33 IP cameras, and full IDF build-out.

Lafayette West Corporate Apartments — Managed Network Services

Property Management | Houston, TX

Installation and ongoing management of network infrastructure including 40 wireless access points, campus-wide Wi-Fi and internet, VoIP for 100 residential units, and campus-wide video surveillance.
